

Breast Cancer

Progress and Controversies

June, 14-15 2013
Hotel Royal Continental
Via Partenope, 38
Napoli

Introduction

Presidents

Giuseppe D'Aiuto

Michele De Laurentiis

Sabino De Placido

Paolo Muto

Honorary President

Angelo Raffaele Bianco

Breast Cancer, the most frequent malignancy among women, is a complex and heterogeneous disease. During the last decades, knowledge development in the field has been astonishing and it has been driving a continuous progress in the clinical management of the disease. If on one hand the pace of such a progress is exciting, on the other hand, its rapidity forces oncologists to a constant debate in the attempt to address the many controversial issues that meanwhile arise.

In this dynamic scenario, the first “Breast Cancer: Progress and Controversies” conference, aims at offering at the best Italian and international multidisciplinary experts in the field an opportunity to exchange opinions about major breast cancer topics, to create collaboration on new ideas and projects, to encourage breast cancer teams integration. At the same time, this will put the attendants in a position to receive a high scientific level overview of the state-of-the-art of breast cancer treatment and to deeply perceive the on-going debate on controversial matters.

We are confident that you will appreciate this opportunity and we aim at periodically repeating this scientific initiative in the future.

Università degli Studi di Napoli
Federico II

ISTITUTO NAZIONALE TUMORI
IRCCS - Fondazione Pascale

FRIDAY
June 14

- 09:15 - 09:45 **Welcome and Opening Ceremony**
Chairs: **Giuseppe D'Aiuto, Michele De Laurentiis, Sabino De Placido**
Authorities: **Gennaro Ciliberto, Tonino Pedicini, Michele Schiano**
- 09:45 - 11:00 **Risk Factors and Prevention**
Chairs: Alberto Costa and Franco Salvatore, Italy
Lecture: Obesity, insulin resistance and chemoprevention strategies. **Annamaria Colao, Italy**
Controversies
Endocrine Chemoprevention: ready for prime time?
Paolo Marchetti
Vitamins and natural compounds: mirage or reality?
Andrea De Censi
BRCA1 and BRCA2 mutations through Next Generation Sequencing (NGS).
Valeria D'Argenio

Panel Discussion
A. Colao, A. Costa, V. D'Argenio, A. De Censi, P. Marchetti
- 11:00 - 11:15 Coffee Break
- 11:15 - 12:30 **Detection and Imaging**
Chairs: Antonella Petrillo and Alfredo Siani
Lecture: New technology and Future prospects for Breast Imaging. **Antonella Petrillo**
Controversies
Surveillance of High Risk Population
Adriana Bonifacino
Advances in Magnetic Resonance Imaging
Roberta Fusco
Nuclear Medicine: progress and controversies in Breast Cancer?
Secondo Lastoria

Panel Discussion
A. Bonifacino, R. Fusco, S. Lastoria, A. Petrillo, A. Siani
- 12:30 - 14:15 Lunch Break
- 

FRIDAY
June 14

14:15 - 15:30

NeoAdjuvant Therapy

Chairs: Fortunato Ciardiello and Pierfranco Conte

Lecture: Neoadjuvant treatment: The story so far. **Gunther Von Minckwitz**

Controversies

Endocrine Neoadjuvant Therapy

Marco Angelo Colleoni

Making the patient a living laboratory

Giuseppe Frasci

Predicting Outcome by Functional Genomics

Valentina Guarneri

Panel Discussion

F. Ciardiello, M.A. Colleoni, P. Conte, G. Frasci, V. Guarneri, G. Von Minkwitz

15:30 - 16:45

Adjuvant Therapy

Chairs: Michele De Laurentiis and Sabino De Placido

Lecture: From clinical trials results to personalized treatment. **Paolo Ponzato**

Controversies

Chemotherapy benefit in Luminal breast cancer

Carmen Criscitiello

Bone anti-resorptive agents in the adjuvant setting

Fabio Puglisi

Adjuvant Therapy of TNBC

Giorgio Mustacchi

Panel Discussion

C. Criscitiello, M. De Laurentiis, S. De Placido, G. Mustacchi, P. Ponzato, F. Puglisi

16:45 - 17:00

Coffee Break

17:00 - 18:15

Treatment of Endocrine-non-responsive Metastatic Disease

Chairs: Sandro Barni and Francesco Cognetti

Lecture: Targeting molecular pathways in Endocrine-non Responsive MBC. **Pierfranco Conte**

Controversies

Chemotherapy: How long is long enough?

Alessandra Gennari

Metronomic Chemotherapy: is there any supporting evidence?

Saverio Cinieri

TNBC: which chemotherapy? Which Targets?

Giuseppe Curigliano

Nab-paclitaxel and Eribulin: is it real progress?

Alessandra Fabi

Panel Discussion

F. Barni, F. Cinieri, F. Cognetti, P. Conte, G. Curigliano, A. Fabi, A. Gennari

FRIDAY
June 14

SATURDAY
June 15

09:15 - 10:30

Treatment of Endocrine-Responsive Metastatic Disease

Chairs: Fortunato Ciardiello and Michele De Laurentiis

Breast Unit Network Award Lecture:

Endocrine therapies and targeted drugs: looking for the perfect match. **Carlos Arteaga**

Controversies

Estrogen Receptor Downregulators: their place in the current landscape

Giuseppe Naso

Targeting m-Tor pathway

Romano Danesi

Treatment of HER2+/ER+ tumours

Grazia Arpino

Panel Discussion

G. Arpino, C. Arteaga, F. Ciardiello, R. Danesi, M. De Laurentiis, G. Naso

10:30 - 11:45

Perspectives in Management of Breast Cancer

Chairs: Paolo Muto and Franco Perrone

Lecture: Gene Signatures in the current management of Breast cancer. **Fabrice André**

Controversies

Intraoperative and accelerated radiation therapy

Roberto Orecchia

New versus old Bone anti-resorptive treatments

Francesco Nuzzo

ECT: present evidence and future perspectives

Riccardo Bussone

Cardiac Toxicity of Targeted Agents: need for Guidelines?

Nicola Maurea

Panel Discussion

F. André, R. Bussone, N. Maurea, P. Muto, F. Nuzzo, R. Orecchia, F. Perrone

11:45 - 13:00

Breast Cancer in Young Patients

Chairs: Giuseppe D'Aiuto and Nando Riccardi

Lecture: Epidemiology of breast cancer in 'under-forty' women. **Prisco Piscitelli**

Controversies

Breast Cancer in young women: Clinical Management

Massimiliano D'Aiuto

Fertility Preservation in Breast Cancer pts

Lucia Del Mastro

Pregnancy in Breast Cancer Survivors

Francesca Di Rella

Panel Discussion

G. D'Aiuto, M. D'Aiuto, M. Del Mastro, P. Piscitelli, F. Di Rella, N. Riccardi

SATURDAY
June 15

Breast Cancer

Progress and Controversies

Segreteria Scientifica

Massimiliano D'Aiuto, Francesca Di Rella, Adriano Gravina, Giovanni Iodice, Vincenzo Labonia, Gabriella Landi, Francesco Nuzzo, Carmen Pacilio, Roberta Caputo, Daniela Cianniello

Institutional Project Managers

Mirella Esposito, Michela Piezzo

INFORMAZIONI GENERALI

L'Evento è stato accreditato presso il Ministero della Salute dal Provider **Andromeda Srl N. 163** con **N. 7 crediti ECM per i primi 270 iscritti** appartenenti alle seguenti figure professionali:

- *Medico Chirurgo (specialista in chirurgia generale, radiagnostica, ginecologia, cardiologia, oncologia)*
- *Farmacista Ospedaliero*
- *Biologo*
- *Tecnico Sanitario Biomedico*
- *Infermiere*

I crediti ECM verranno attribuiti a coloro che parteciperanno all'intera durata dell'evento e che risponderanno esattamente al 75% del questionario ECM.
